Excerpt: . plates the acquisition and rule of a township, and that, while farming on a large area is to many attractive and inspiring, there are scope and incitement also for tillage on a humbler scale--for tillage that permits no weed to ripen seed, and no nest of caterpillars to flourish a month undisturbed--for tillage that achieves large crops and profits from small areas, and rejoices in that neatness and perfection of culture attainable only in the management of small farms. L. EXCHANGE AND DISTRIBUTION. The machinery whereby the farmer of our day converts into cash or other values that portion of his products which is not consumed in his house or on his farm, seems to me lamentably imperfect. Let me illustrate my meaning: After three all but fruitless years, we have this year a bountiful Apple-crop, in this State and (I believe) throughout the North. Our old orchards being still, for the most part, preserved and in bearing condition, while a good many young ones, planted ten to twenty years ago, begin to fruit considerably, we had, throughout the three Fall months, a superabundance of this homely, wholesome, palatable fruit. It should have been cheap for the great body of our mechanics and laborers to provide their families with all the ripe, good Apples that they could consume without injuring themselves by gluttony. Good Apples should have been constantly displayed on every workingman s table, to be eaten raw as a dessert, or...
